

Project Initialization and Planning Phase

Date	26 August 2026
Team ID	-
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges.

Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" they are after - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what makes them hard?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problems or barriers exist - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am	I'm trying to	But	Because	Which makes me feel
A customer who orders food online.	Choose food that matches my preferences, meal type, hunger level, mood, and budget.	There are many food choices, making it difficult to decide which option is most suitable.	My ordering decision can be influenced by cuisine, discounts, restaurant type, location, meal type, and other customer factors.	Uncertain about my food choices and whether I am getting good value from my order.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer who orders food online.	Choose food that matches my preferences, meal type, hunger level, mood, and budget.	There are many food choices and it is difficult to understand which options are most suitable.	Ordering decisions can be influenced by cuisine, discounts, restaurant type, location, weather, and other customer factors.	Uncertain about my choices and whether I am getting good value from my order.
PS-2	A food-ordering business or restaurant manager.	Understand customer preferences and increase orders, order value, and repeat purchases.	Customer behavior and preferences are spread across many different factors and are difficult to compare manually	there are patterns involving cuisine, city, meal type, discounts, repeat orders, ratings, mood, hunger, and weather.	it is difficult to identify the most important customer segments and make data-driven decisions.
